Per Student

The BLS for Healthcare Providers Course is intended for participants who provide healthcare to patients in a wide variety of settings, including in hospital and out of hospital settings Courses.

The course teaches the skills of CPR and choking for victims of all ages including ventilation with a barrier device, pocket face mask, bag valve mask with oxygen supplementation and the use of an AED Defibrillator.

These healthcare providers may include doctors, nurses, paramedics, occupational therapists, doctor's assistants, dentists, medical and nursing students and other allied health personnel. The Healthcare Provider course is designed for anyone who is required to take a course for employment in the healthcare field.
